

## ALM Rules & Regulations

Annapolis Landing Marina wishes you a happy and trouble free stay with us. We ask that you abide by the following rules & regulations. If you have any questions, please contact Alison LeBlanc at 410-263-0090.

- All slipholders are required to carry vessel insurance. ALM is requiring a minimum of \$500,000.00 general liability and hull coverage based on the vessel's value.
- Each slip is assigned 2 parking decals. A maximum of 2 cars registered to a slipholder may be parked in the lot at any given time. Guests must obtain a parking pass from the fuel dock. Parking in "No Parking" zones will result in vehicle being towed.
- We ask that no bathing suits, towels or laundry be hung on the outside of your vessel or on marina property.
- The use of charcoal or propane grills on your boat is strictly prohibited! The marina has a number of picnic areas with charcoal grills that slipholders are welcome to use.
- No swimming (except in the swimming pool), diving, fishing or crabbing in the marina.
- Sewage will not be pumped into marina waters! There is a pumpout station located at the fuel dock.
- All trash must be secured in bags and deposited into the dumpsters. All empty cardboard containers must be broken down before being put into the recycle bin. Oil and antifreeze recycling is located between the metal shed and the swimming pool. Please ask our staff regarding the disposal of all other hazardous material.
- Pets are welcome at ALM. We ask that you keep your pet leashed while on marina property, including piers. Dogs are not allowed in the Back Porch Café, bathrooms or laundry rooms. Dogs may run on the lawn in front of A-Dock under close supervision. We have provided for pet owners a trash can for your pet's solid waste at the base of A-Dock. Please clean up after your dog.
- When a vessel enters the marina, it immediately comes under the jurisdiction of ALM management and shall be berthed only where directed. ALM reserves the right to move any boat in the absence of the owner should the need arise. However, the vessel shall remain under the exclusive care, custody and control of the owner.

THE VIOLATION OF THESE RULES MAY RESULT IN THE TERMINATION OF THE  
SLIPHOLDER'S LEASE
